A message from the Promoter

Dear Member,

On behalf of the promoter, IVCN, we would like to take this opportunity to thank you for your continued support.

2023 was another positive year for us and despite the many challenges that we faced throughout the year we continued to grow from strength to strength. Going forward, we will continue to provide ongoing education and support about QROPS, UK legislation and Australian Superannuation. We will also be continuing our ongoing efforts develop the fund and enhance the overall member experience for you.

We are very proud that we can continue to provide an 'easier' fully supported option targeted at expatriates to help bring their overseas pension fund into Australia and/or to consolidate their super into one Australian superannuation fund with multi-currency investment options. We also remain proud that since the Australian Expatriate Superannuation Fund (AESF) launched on October 26, 2016, we have remained as the sole retail Superannuation QROPS in the Australian market.

Please take some time to review this Annual Report and your Annual Member Statement. These documents provide details on contributions made to your plan, investment details, nominated beneficiaries and more.

If you have any questions, please do not hesitate to call the AESF Member Services team on +61 2 7202 0151 between 9am and 5pm (AEST), Monday to Friday or email a member of our team at australia@ivcm.com.

Yours faithfully

MARKET COMMENTARY FY2022-2023

ECONOMIC CONDITIONS

The focus going into FY22-23 was how governments globally would wind back stimulus programs implemented during the COVID-19 pandemic and increase interest rates with inflation pressures becoming the significant economic and social concern, with commodity price surges and production and transport delays given supply chain issues and the devastating invasion of Ukraine. Climate events such as floods and drought also contributed to rising inflation levels.

During the financial year, global inflation surged to multi-decade highs. Inflation rose sharply to over 10% in Europe, above 9% in the US and to 8.4% in Australia in late 2022 leading to central banks across the globe embarking on the sharpest rate hike cycle in decades in an attempt to bring inflation back under control. Australian electricity prices increased by 14% and food by more than 11%. The Reserve Bank of Australia (RBA) followed other central banks in raising rates, with the cash interest rate climbing dramatically from 0.85% in June 2022 to 4.10% by 30 June 2023. This saw mortgage borrowing rates surge higher. For renters, there has been an intense squeeze as landlords have passed on higher borrowing costs by putting up rents for tenants.

Fortunately, there was some moderation in price pressures toward the end of the financial year with Australia's inflation coming in at 5.6% in May and the US at 4%. By financial year end, it became clear that policy tightening was beginning to do its job with a decline in both inflation and economic growth. This was also accompanied by falling long bond yields which provided some support for long duration assets.

At this stage, most major economies have avoided slipping into recession, although leading economic indicators are pointing towards further growth weakness in the quarters ahead. The RBA's view is that inflation remains too high and high interest rates are needed to ensure that inflation falls back to within the targeted 2% - 3% range. The RBA believes that Australia can maintain a 'narrow path' of preserving economic growth even with the large increases in interest rates.

FINANCIAL MARKETS

Notably over FY 22-23, there were a wide range of share performances across countries and industries.

Even with significant risks relating to inflation, interest rates and political uncertainties, global shares delivered strong gains. Though global share prices fell sharply at the start of the financial year they rebounded strongly from October 2022 with the market confident that corporate profits had been resilient to the risks and the conviction that Artificial Intelligence, or 'AI,' will deliver remarkable benefits. Unhedged global shares delivered very strong returns of around 22% over the year given the benefit of a weaker Australian dollar. A key feature of the rally was narrowness in breadth with a handful of IT stocks leading US equities and ultimately global equities higher (including Nvidia +179%, Meta +78%, Apple +42%, Microsoft +33%, Amazon +23%, Tesla +17% and Alphabet +10%). US shares delivered a robust gain of just over 17%.

European shares also made strong gains even with the challenges of rising interest rates and Russia's invasion of Ukraine on their doorstep. The Japanese share market delivered an incredibly strong 25.8% annual gain given the benefit of interest rates remaining near 0% and a weak currency. The Chinese and Hong Kong markets lagged behind the rest of the world with both producing negative for the year as their economic recoveries stalled.

In Australia, equities returned around solid 14% for the year lead by the IT sector (+32.2%) - a similar tale to the global tech story. Materials, resources and utilities also performed strongly with returns for each of the sectors in excess of 20%. Surprisingly, despite the challenges of higher inflation and interest rates the consumer discretionary and financial sectors also performed well, returning 13% and 12.9% respectively.

Australian fixed income returned a soft 1.2% annual return, which was below the 2.9% cash return. Global bonds had a disappointing year with a weak -1.2% return due to rising inflation and interest rates.

Global property securities also performed disappointingly with a -5.9% return. The sharp rise in interest rates as well as worries about 'working from home' negatively impacting office occupancy has seen property securities underperform. The Australian property securities market fared better returning a positive 7.5% over the year.

Investment Objective & Strategy

The principal investment strategy of Division 7 of the Tidswell Master Superannuation Plan referred to as Australian Expatriate Superannuation Fund is to provide a range of risk and return options to suit all investors. This has been achieved by adopting a general investment policy that offers access to a wide range of investment options including managed funds, listed securities, real estate, term deposits and other income producing investments such as mortgages. This policy is designed to provide the opportunity to achieve attractive investment returns at acceptable levels of risk.

Investors are able to satisfy their objectives by selecting the proportion of their account balance to be invested in each investment option as outlined in the latest Product Disclosure Statement (PDS). The higher the proportion allocated to growth assets (e.g. property, Australian and international shares, etc), the higher the expected level of return, but with increased risk. Conversely, when a higher proportion is allocated to defensive assets (e.g. cash, fixed interest, mortgages, etc), a lower level of return and risk may be expected.

The diversification obtained by establishing an investment portfolio across several asset classes is expected to reduce risk because if one asset class does not perform well, it can be offset by other asset classes that may be performing better.

Historically, portfolios with a higher weighting towards growth assets have outperformed more conservatively invested portfolios. Given the long term nature of investing, it is logical that many people weight their portfolios towards growth assets. However, when constructing your portfolio you should consider the need for diversification to ensure that the investment options selected meet your individual needs, risk tolerance and investment timeframe.

Important Information about the Trustee

Trustee

The Trustee of the Master Plan, under the Trust Deed governing the rules of the Plan, is Diversa Trustees Limited ABN 49 006 421 638, RSEL L0000635, AFSL 235153 (Diversa).

Directors of the Trustee during the year ending 30 June 2023 were/are:

Current as at 30 June 2023	
Name	Date Appointed
Michael John Terlet AO	18 February 2021, resigned 30 June 2023
Fiona Margaret McNabb	28 June 2019
Andrew John Peterson	28 June 2019
Ronald Peter Beard	18 February 2021
Vincent Plant	4 May 2017
Susan Thomas	15 August 2022
Mark Walter	26 June 2023

The Trustee and its directors hold and have held professional indemnity insurance over the entirety of the 2022-2023 financial year.

The Trustee has agreed to act as the independent corporate Trustee and the Fund is administered by the Trustee.

Trustee Committees

The Board has established five Committees and appoints all members. The Trustee's committees are Audit and Audit Compliance Committee, Investment Committee, Member Best Interests Committee, Risk Committee, and Remuneration and Nominations Committee.:

TRUSTEE EXECUTIVE OFFICERS

Rachel Griffith, Company Secretary and General Manager Investment Oversight

Johanna Hartnett, General Manager, Office of the Superannuation Trustee

Joshua Haymes, General Manager, Strategy

Daniel Strachan, General Manager, Insurance and Oversight

No penalties were imposed this year on any responsible person under Section 38A of the *Superannuation Industry (Supervision) Act 1993*.

Trust Deed

The governing rules of the Fund are set out in the Tidswell Master Superannuation Plan Trust Deed. The Board has some powers to alter the Trust Deed. During the year, the Trustee amended the Trust Deed. This change has no impact upon you or your benefits within the Tidswell Master Superannuation Plan. A copy of the Fund Trust Deed can be found at <https://diversa.com.au/funds/>.

Compliance

The Trustee believes that the Plan has satisfied the requirements of the *Superannuation Industry (Supervision) Act 1993* (SIS) for the year ended 30 June 2023, and that the Australian Prudential Regulation Authority (APRA) will be satisfied that the Plan is operating in accordance with SIS.

Audit

BDO Audit has completed an audit for the Plan. The audited abridged financial information for the Fund is provided within the 'Abridged Financial Information' of this Annual Report. A full copy of the audited accounts and auditor's report will be available for inspection on the Trustee's website at <https://diversa.com.au/funds/>

Contributions

Under the compulsory Superannuation Guarantee (SG) scheme, employers must contribute 11% of an employee's ordinary time earnings (OTE) to a complying superannuation fund. These contributions must be made within 28 days of the end of the quarter.

The SG payment rate increased to 11% on 1 July 2023. It will increase by 0.5% each year until it reaches 12% by 1 July 2025.

From 1 January 2020, contributions made under a salary sacrifice arrangement will not count towards an employers' SG contributions in order to avoid the super guarantee charge. Additionally, salary sacrificed contributions will not reduce the OTE used to calculate super entitlements.

Members should check their individual benefit statements to confirm that total contributions have been received from their employer for the year ended 30 June 2023.

Allocation of Earnings

The net return achieved by the investments selected by a member, after taking into account gains or losses of a revenue or capital nature, any applicable expenses or tax, and interest on the cash holdings in respect of a member, is passed on to the member. The value of a member's Fund Account will reflect the performance of underlying investments attributable to the member's investments, based on market valuations. Income and distributions from investments will be accrued in your cash holding in the Cash Hub.

The earnings in the Fund are taxed at a maximum rate of 15%, however the rate may be lower than the maximum rate due to tax credits or other tax rebates. Where your account is subject to tax on earnings, an annual tax adjustment is applied to your account after the year end. The value of the tax adjustment will reflect tax on earnings, capital gains, and may include franking credits.

Reserving Policy

Operational Risk Financial Requirement (ORFR)

We are required under legislation to keep a financial reserve to cover any losses that members incur due to a breakdown in operations. This is referred to as the Operational Risk Financial Requirement (ORFR).

The ORFR may be funded from the financial resources of the Trustee, the Plan assets or a combination of both. The Trustee has determined it will address this requirement from its own resources. The ORFR is invested in the Trustee's cash account.

Expense Reserve

The Trustee has established an Expense Reserve used for the benefit of all members. This reserve sets aside modest provision for unexpected or unforeseen expenses, that the Board determines should be met from a reserve rather than directly deducted from member accounts. The Trustee holds this reserve in cash.

The balance of the Expense Reserve within the Plan at the end of the previous three years is summarised below.

Year ended 30 June	Expense Reserve (\$'000)
2023	\$770
2022	\$673
2021	\$468

Insurance

The insured benefits, in the form of either Total and Permanent Disablement and/or Income Protection insurance from the Plan are provided under a policy of insurance between us the Trustee and YourCover Pty Ltd ABN 35 169 038 466 on behalf of certain Underwriters at Lloyd's.

The level of cover is subject to terms, conditions, restrictions, adjustments and offsets (if any) imposed under the policy by the insurer. Members should check their individual benefit statements to confirm the level of cover that they hold.

The policy is closed to new members.

Service Providers

The Trust Deed permits the Trustee to appoint independent specialists to assist with the management and operation of the Fund. The Trustee has appointed the following professional firms to provide services to it:

Service	Professional Firm

Derivatives

Derivatives, such as futures or options, are financial contracts used in the management of investments whose value depends on the value of specific underlying investments. For example, the value of a share option is linked to the value of the underlying share.

The Trustee does not directly use derivative instruments. However, some of the underlying managed funds may do so.

External fund managers may use derivatives in managing the options that are available through the Plan.

Further Information

We encourage you to review your member benefit statement with this Annual Report. If you would like to discuss any aspect of your statement or this Annual Report, please contact your financial adviser or Member Services on 1300 323 489.

Returns shown are net of investment costs (where applicable). The returns represent past performance and do not guarantee future results. Current performance may be higher or lower than the performance quoted. The returns do not include the administration fee or tax (if any applicable) on investment earnings.

Foreign Exchange is not reflected in the return on foreign currency investments.

Temporary Residents

Foreign If you have worked in Australia on a temporary visa and you have super in Australia, you can apply after you leave Australia to have this super paid to you as a Departing Australia Superannuation Payment (DASP). If you have not claimed your super after you have left Australia for at least 6 months, and your visa has been expired or been cancelled, your super will be transferred to the ATO as unclaimed super money. You can subsequently access your benefit from the ATO.

The ATO can be contacted on 13 10 20. We are not obliged to notify or give an exit statement to you if we transfer your super to the ATO after you depart Australia.

Investment Information

An extensive range of carefully selected investment options are available through Australian Expatriate Superannuation Fund. Our research considers a broad range of products when constructing the list of investments being offered and we select only those that we believe are worthy of making available to our members. We also monitor the performance of the available investment options to ensure they remain competitive.

AUD - Schroder Real Return Fund – Wholesale Class

Objective

The Fund aims to achieve a return of CPI plus 4% to 5% p.a. before fees over rolling 3-year periods while minimising the incidence and size of negative returns in doing so.

Strategy

The Fund applies an objective based multi-asset investment strategy. The fund adopts a dynamic approach to take full advantage of the opportunities presented in the market. The Fund's investment universe is relatively unconstrained to allow it the flexibility to effectively and efficiently allocate to and select those assets (including alternatives, derivatives and active currency) that in combination target the greatest probability of achieving the Fund's investment objective on all market environments. This is further enhanced by the incorporation of a multi-factor risk management framework designed to identify, understand and mitigate and inherent downside risk within the Fund.

GBP - Vanguard FTSE 100 UCITS (FTSE:VUKE)

Objective

This Fund seeks to track the performance of the FTSE 100 Index, a widely recognised UK benchmark of the UK market's most highly capitalised blue chip companies.

Strategy

The Fund employs a "passive management" – or indexing – investment approach, through physical acquisition of securities, designed to track the performance of the Index, a free float adjusted market capitalisation weighted index. In tracking the performance of the Index, the Fund attempts to replicate the Index by investing all, or substantially all, of its assets in the stocks that make up the Index, holding each stock in approximately the same proportion as its weighting in the Index and may therefore have exposure to or invest up to 20% of the Net Asset Value of the Fund in stocks issued by the same body, which limit may be raised to 35% for a single issuer in exceptional market conditions which may include the dominance of a particular issuer in the relevant market. This is denominated in GBP.

GBP - iShares Core £ Corporate Bond UCITS (LSE:SLXX)

Objective

The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the Sterling denominated investment grade bond market. The Fund aims to produce a return on your investment which reflects the return of the Markit iBoxx GBP Liquid Corporates Large Cap Index, the Fund's benchmark index (Index).

Strategy

The Fund aims to invest so far as possible and practicable in the fixed income (FI) securities (such as bonds) that make up the Index and comply with its credit rating requirements. If the credit ratings of the FI securities are downgraded, the Fund may continue to hold them until they cease to form part of the Index and it is practicable to sell them. The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index or other FI securities which provide similar performance to certain constituent securities.

USD - Vanguard High Dividend Yield (NYSE:VYM)

Objective

The fund seeks to track the performance of a benchmark index that measures the investment return of common stocks of companies that are characterized by high dividend yield - the FTSE High Dividend Yield Index.

Strategy

The fund employs an indexing investment approach designed to track the performance of the FTSE High Dividend Yield Index, which consists of common stocks of companies that pay dividends that generally are higher than average.

The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

News in superannuation

There were several changes to the superannuation regulatory landscape during the 2022-2023 financial year, with key changes detailed below. Some of the most significant changes were announced in the 2023 Federal Budget. The information below was compiled as at November 2023, and is subject to change. For up-to-date information relating to taxation of superannuation, go to ato.gov.au or contact the Fund.

Annual Performance Test

Each year, APRA conducts a performance test to assess the performance of superannuation products against industry benchmarks. The performance test looks at both investment returns and fees. The first performance test for MySuper products was performed in 2021. For Choice Products, which members actively choose to invest their superannuation saving in, the first performance test was performed in 2023. Any superannuation products that failed the performance test were required to write to their members to notify them.

Retirement Income Covenant

On 1 July 2022, legislation came into effect to amend the Superannuation Industry (Supervision Act) 1993 (SIS Act), requiring all APRA-regulated trustees to comply with the Retirement Income Covenant (the covenant). As part of this covenant all superannuation funds are required formulate a retirement income strategy and make it available on their website. The retirement income strategy outlines how the superannuation fund intend to assist their members who are either retired or are approaching retirement achieve the below objectives:

- maximise expected retirement income over the period of retirement;
- manage expected risks to the sustainability and stability of retirement income over the period of retirement; and
- have flexible access to expected funds over the period of retirement.

Changes to fees and costs disclosure in the PDS and member statements

In an effort to make fees transparent and easier to understand for members, some changes have been made to how fees and costs are disclosed in your annual statement and the PDS for all superannuation products. Key changes include:

- re-grouping values in the re-named 'Fees and costs summary' to more clearly show fees and costs that are ongoing and those that are member-activity based;
- simplification of ongoing fees and costs into three groups – Administration, Investment and Transaction;
- inclusion of a single 'Cost of Product' figure in a PDS; and
- simplification of how fees and costs are presented in periodic statements.

Please refer to the fees and costs section of the PDS and annual member statement for more information.

Superannuation Guarantee Percentage

From 1 July 2023, the Superannuation Guarantee rate (SG rate), which is the minimum amount of super your employer must legally pay to your super, has increased from 10.5% to 11%. The SG rate is scheduled to increase by 0.5% each financial year until it reaches 12%, as shown in the table below.

Period	General SG rate
1 July 2022 – 30 June 2023	10.5%
1 July 2023 – 30 June 2024	11.0%
1 July 2024 – 30 June 2025	11.5%
1 July 2025 – 30 June 2026 and onwards	12.0%

2023 Budget Changes

Downsizer Contributions – Eligibility Age

Subject to eligibility requirements, an individual member can contribute up to \$300,000 from the proceeds of the sale (or part sale) of their home into their superannuation fund, providing them with a one-off way to contribute additional funds to their superannuation.

On 1 July 2022 the eligibility age for making a downsizer contribution changed from 65 years or older, to 60 years or older. The eligibility age changed again on 1 January 2023 from 60 years or older, to 55 years or older. These changes allow more Australians to make use of this superannuation scheme if they consider it suitable for their situation, and they meet all the eligibility requirements. For more information on superannuation downsizer contributions and eligibility requirements please visit the ATO website at www.ato.gov.au.

Transfer Balance Cap

The general transfer balance cap (TBC), being the amount of money that you can transfer into a tax-free retirement account, increased from \$1.7 million to \$1.9 million. If an individual's transfer balance account (TBA) reached \$1.7m or more at any point before 1 July 2023, their TBC after 1 July 2023 would remain at \$1.7m. If the highest amount in their account was less than \$1.7m, then their cap is proportionally indexed based on the highest ever balance their TBA reached.

Pension Minimum Drawdown Rates

During the COVID-19 pandemic the Federal Government temporarily reduced the minimum pension drawdown rates for pension members to allow for greater flexibility. This was first put in place for the 2019/20 financial year and was later extended to the end of 2022/23. From 1 July 2023, the reduction to minimum drawdowns came to an end, and the standard default minimum drawdown rates applied, as per the table below.

Age	2019–20 to 2022–23 financial years (inclusive)	2023–24 financial years and onwards
Preservation Age to 64	2%	4%
65 to 74	2.5%	5%
75 to 79	3%	6%
80 to 84	3.5%	7%
85 to 89	4.5%	9%
90 to 94	5.5%	11%
95 and over	7%	14%

2022 Budget Changes

Repealing the Work Test for Voluntary Super Contributions

Prior to 1 July 2022, if a member was aged 67 to 74 years old you could only make or receive voluntary contributions (both concessional and non-concessional) if you met the 'work test'. That is, you must have worked at least 40 hours over a 30-day period in the relevant financial year. From 1 July 2022, this requirement has been removed.

Note: members may still need to meet the work test to claim a personal superannuation contribution deduction.

Eligibility changes to the bring-forward arrangements

From 1 July 2022, if a member is under 75 years of age at any time in a financial year (previously 67 years of age before 1 July 2022) you may be able to make non-concessional contributions of up to three times the annual non-concessional cap in that financial year.

Note: Eligibility for the bring-forward arrangement depends on your:

- age, and
- total super balance on 30 June of the previous financial year.

Further eligibility criteria may apply, go to www.ato.gov.au or contact the Fund.

Increasing the First Home Super Saver Maximum

The First Home Super Saver (FHSS) allows people to save money for their first home inside their super fund. Members can do this by making voluntary concessional (before-tax) and voluntary non-concessional (after-tax) contributions into their super. This can help first home buyers save faster with the concessional (lower) tax treatment of superannuation. You can then apply to release these voluntary contributions, along with associated earnings, to help purchase your first home.

From 1 July 2022, the amount of eligible contributions that count towards the maximum releasable amount changed from \$30,000 to \$50,000.

Note: Eligibility criteria for the First Home Super Saver Scheme include:

- You need to occupy the premises you buy, or intend to buy, as soon as practicable.
- You intend to occupy the property for at least six months within the first 12 months you own it, after it is practical to move in.

Further eligibility criteria may apply, go to www.ato.gov.au or contact the Fund.

Removing the \$450 per month threshold for super guarantee (SG) eligibility

From 1 July 2022, employers are required to make SG contributions to their eligible employee's super fund regardless of how much the employee is paid, removing the longstanding \$450 per month threshold. Employees must still satisfy other super guarantee eligibility requirements to be eligible for employer superannuation contributions. For further information go to www.ato.gov.au or contact the Fund.

Important Information: The information provided here is general in nature and has been prepared without taking into account your own objectives, financial situation, and needs. Before making decisions based on the information provided, you should consider how appropriate this information is for your individual circumstances, consider doing your own research, and consider seeking independent professional advice.

Member's Right to Request Information

As a Member you have the right to request any information that you reasonably require to understand your benefit entitlements. This includes such things as copies of the following information from the Trustee:

- the provisions of the governing rules of the Plan which relate to the person's membership or would affect the entitlements or rights of the Member.
- the audited accounts and Auditor's Report.
- the most recent Actuarial Report.
- the most recent Annual Report to Members.
- any other information a Member reasonably requires in order to understand their benefit entitlements.

This information must be provided within 30 days of receiving your request.

Lost & Unclaimed Money

In certain circumstances, if an amount is payable to you (or your dependant) and we are unable to ensure that you will receive it, we may be obliged to transfer the amount to the ATO. We may also be required to transfer your account balance to the ATO if you become a lost member. If your superannuation is transferred to the ATO, the ATO can proactively pay that amount to an eligible active superannuation account held by you, or continue to hold the amount for you if they are unable to do so. For more information on unclaimed super money, please refer to ato.gov.au.
