

## 2020 Annual Member Meeting

### Smartsave 'Member's Choice' Superannuation Master Plan / OneSuper

#### Questions submitted by members

##### Question:

Will superfund members be able to buy individual shares directly? When will this feature of buying shares directly be made available to members?

##### Response:

The combination of SFTs into OneSuper has added capability that does extend to direct shares. Our first priority has been to successfully bring Smartsave, LESF and Macmahon and MAP Superannuation Plan into the one fund. One of our priorities in 2021 will be a review of the structure of the offerings for each sub-plan of OneSuper, including Smartsave to assess the opportunities to make improvements to the product. Part of this structural review will include the range of investments on offer and in particular, member driven direct investments.
