About this report

Your Tidswell Superannuation Fund (the Plan) 2020 Annual Report is one of two parts that forms the Annual Periodic Statement:

PART 1: 2020 ANNUAL MEMBER BENEFIT STATEMENT

Contains personal information to help you understand your benefits over the 2019-20 financial year. You will receive this separately in the mail.

PART 2: 2020 ANNUAL REPORT

This document contains general information about the Plan including its financial condition, management and investment performance over the 2019-20 financial year. This document is available online or can be mailed to you free of charge by calling Tidswell on 1300 796 079.

This 2020 Annual Report should be read together with your 2020 Annual Member Benefit Statement.

Important

Tidswell Superannuation Fund is a sub plan of the Tidswell Master Superannuation Plan
ABN 34 300 938 877, RSE 1004953.

The Trustee of the Plan and issuer of interests in the Tidswell Master Superannuation Plan is Tidswell Financial Services Ltd ABN 55 010 810 607, AFSL 237628 (RSE Licence Number L0000888) and has been the trustee for the duration of the period.

Neither the Annual Report nor the Benefit Statement (Parts 1 and 2) contains financial product advice, so you should not rely on it as such. Before making any decision based on this information, you should obtain and read the relevant Product Disclosure Statement (PDS) and consider seeking independent financial advice relevant to your personal circumstances. Copies of the PDS are available on our website – www.tidswell.com.au

A MESSAGE FROM THE TRUSTEE

Dear Member

I am pleased to present the report for the financial year ended 30 June 2020 for Tidswell Superannuation Fund.

A Year of Big Challenges for all Australians and your investments

The last 12 months have certainly been a year of challenges with the bushfires in the summer of 2019/20 and the COVID-19 pandemic which has been a focus for not only Australia, but the world for much of 2020 and the resulting economic downturn.

In response to the pandemic, the Federal Government initiated the Early Release Payment scheme to allow members adversely impacted by COVID-19 to access a portion of their superannuation, which we supported. During this time, we worked hard to ensure that member payments were processed in a timely, safe and efficient manner to support our members in your time of need.

As Trustee, we have been communicating with you in light of the market volatility and uncertainty and will continue to do so.

Such extreme global events had an impact on economies and financial markets. Whilst the March quarter saw investment returns fall, the massive stimulus measures put in place by governments and central banks saw a more positive June quarter. Nevertheless, for the 12 months to the end of June 2020, investment returns recovered from what might have been.

The balance of 2020 has seen more positive sentiment driven by strong containment of the pandemic in Australia and growing prospects of an effective vaccine, so we are hopeful of improving investment returns in equity markets.

The last 12 months highlight the need for a well-diversified fund to help protect investment returns into the future. Tidswell Superannuation Fund offers a menu of investment options designed to provide you with the ability to choose your investment portfolio to suit your personal circumstances, and we if not already we strongly encourage you to talk to your financial adviser about suitable portfolio construction.

Your Trustee is Changing to better serve you, but is remaining independent

This year you may have noticed there has also been a lot of regulatory change and media coverage of superannuation fund performance, consolidation and costs. As your Trustee, we remain committed to ensuring that we put your interests first. In light of this, Tidswell is looking to streamline its business by consolidating all our super funds under one trustee company, Diversa Trustees Limited (Diversa). Diversa is part of the same group as Tidswell and we anticipate that this consolidation should ultimately allow us to improve scale, efficiency and deliver better member outcomes. We will contact you further on this before the change occurs.

Importantly, both Tidswell and Diversa are independent. By this we mean that, unlike almost all superannuation trustees, we have no commercial or vested interest in your service providers, such as investment, administration and insurance managers appointed to manage your fund. We therefore objectively monitor their performance and value for money and are able to change providers if they are not providing value to you.

IMPORTANT: your beneficiary(ies)?

Have you provided us with your nomination of preferred beneficiary or kept this information updated due to change personal circumstances in the event of your death? We see many death benefits delayed because the Trustee cannot easily determine your beneficiary preferences. This delay can be very distressing for your family at a very difficult time for them. I strongly encourage you to check your beneficiaries on your Membership Statement and if absent or out of date provide an updated nomination by

visiting the Tidswell Superannuation Fund website at www.sargon.com/documents, and or calling us on 1300 796 079.

I would like to thank my fellow directors and staff for staying focussed and committed to delivering the best outcomes for our members in these challenging times.

Most of all, thank you again for entrusting your retirement funding to us. On behalf of the Trustee, directors, management and staff we wish you safe passage in these uncertain times. Please do not hesitate to contact our office for further information.

Yours sincerely

M J Terlet AO
Chairman
Tidswell Financial Services Ltd
as Trustee of Tidswell Superannuation Fund

INVESTMENT REPORT

Overview

The 2020 financial year could almost be described as one of two halves – the first half where markets were in a general malaise and returns relatively flat, and the second where markets experienced wild volatility. The volatility in the second half of the year was extreme. It saw markets rising to record levels on positive sentiment until late February, and the impact of coronavirus (COVID-19) in the latter phase where March 2020 saw the onset of the pandemic affect global markets in a manner rarely seen before. The recovery in the June quarter was equally as astonishing, with massive stimulus measures implemented by governments and central banks worldwide to cope with the COVID-19 effect pushing markets to large gains from their March lows.

Economic Conditions

Australia started FY2019/20 with mixed economic conditions. The unemployment rate increased in September to a 12-month high of 5.3%. In an attempt to stimulate economic activity and support the unemployment rate, the Reserve Bank lowered the cash rate for the third time over 2019 by 25 basis points to a record low of 0.75% in October. Rounding out the calendar year, another trade surplus was recorded in December and while growth rates were moderate, the economy continued to show signs of resilience.

As 2020 began, Australia was hit with a devastating summer of bushfires impacting domestic travel and commerce. Even so, Australian equities had been fairly solid against the backdrop of the bushfires and concerns about weakening global growth with Australia, parts of Asia and Europe recording sluggish growth in early 2020. In addition to generally soft numbers coming out of the global economy, the lingering trade standoff between the US and China continued to weigh on sentiment. The US economy continued to perform well however, which supported the performance of markets.

The original emergence of COVID-19 in the city of Wuhan, China in late 2019 and its rapid spread throughout the country in early 2020 was originally viewed both by governments and markets worldwide as an event that would likely be contained to that country, resulting in a temporary impact to the Chinese economy. It was thought by some commentators that stimulus provided by the Chinese government would mediate the global impact, and the impact to markets might see a “V-shaped” recovery. However, the rapid spread of COVID-19 worldwide and the devastating health and economic consequences that unfolded globally saw those assumptions quickly change, eventually prompting the World Health Organisation (WHO) to declare a pandemic on March 11, 2020.

The ominous economic performance statistics coming out of China in early 2020, including the contraction of their economy by 6.8% (YoY) in the March quarter, resulting from the restriction measures implemented by the Chinese government to contain the virus was a sign of things to come for the broader world economy. In March, the economic impact hit global markets swiftly and severely, causing a bout of volatility rarely seen before. Governments and central banks were pumping massive amounts of stimulus into economies, with government assistance packages seemingly being rolled out and extended on a continuing basis to a range of industries and citizens alike. This is an ongoing commitment from the central banks and governments globally of a significant magnitude.

Australia was one of the first countries to close their borders on 20 March due to the pandemic. It gave the nation the benefit of time and knowledge from the experiences of other countries to prepare and act on mitigation plans to help manage the impending onset of the virus in this country. The rising infection numbers both globally and in Australia resulted in the government necessarily imposing limitations on personal activities and business operations to protect public health. On 30 March, the Federal Government implemented the JobKeeper stimulus package to support businesses and individuals impacted by COVID-19, the core aim of which was to help limit job loss by allowing employers to retain staff. The Reserve Bank of Australia (RBA) cut interest rates in March by 25bps to 0.50%, and then days later followed with a further 25bp emergency cut to a record low of 0.25%. The RBA also committed to the purchase of Australian federal and state government bonds as well as a A\$90 billion term funding facility to the banking system at a fixed rate of 0.25% for lending to businesses.

The subsequent weeks and months saw a series of virus-related restrictions and lockdown measures throughout the country which forced many businesses to close or suspend trade. With the restrictions affecting almost every single country, industry and consumer the Federal Government’s campaign to achieve a budget surplus has been replaced by a huge deficit in order to support the national economy.

A relative amount of containment of the spread of the virus in June prompted an easing of restrictions and resumption of economic activity in both Australia and globally. In Australia, ongoing lockdowns due to a large rise in infections in Victoria is a reminder that future economic activity and market volatility remain largely contingent on containing the virus. Until a vaccine is available, economies and markets will likely remain volatile.

Financial Markets

In Australia, the S&P/ASX 200 Accumulation Index returned -7.7% for the year to 30 June 2020, with industrials and resources returning comparably negative returns. The Real Estate and Financials sectors have been particular standouts for the wrong reasons, with the S&P/ASX200 A-REIT Index and Financials (ex-AREIT) Index underperforming the market by significant amounts. Respectively, their returns were -21.3% and -21.4% over the financial year.

Market results through the first half of the year were up and down as a result of trade concerns around the US and China, as well as an uninspiring reporting season in August and September. The beginning of the 2020 calendar year saw confidence return and the market hit an all time high in February. However, the positive sentiment was short-lived, and the full threat of the COVID-19 pandemic emerged in March and with it came a fall in markets of a magnitude and swiftness unlike any seen before with the market falling 20.7% for the month. Australia's early success in managing the spread of the virus and the progressive easing of restrictions which enabled parts of the economy to reopen earlier than some predicted bought about a rise in confidence in the market. A stunning turn-around during the June quarter resulted, with a market gain of 16.5%.

Global equities (ex-Australia) performed strongly compared to the Australian market, returning +5.2% on an unhedged basis while the hedged return of +1.3% was due to the weakened Australian dollar. The story of the market rise, then fall, then rise again was a similar one in all markets.

In the US, the S&P 500 rose 7.1%, substantially helped by a roaring tech sector. The US Technology sector significantly outperformed all other markets and sectors as they were clear beneficiaries of the 'stay-at-home' restrictions imposed by governments due to the pandemic. The big tech players were the clear winners out of the pandemic, with the June quarter seeing major gains in the share price values of Apple (+44%), Amazon (+41%), Facebook (+36%) and Microsoft (+29%).

In Europe, the UK's FT100 Index returned -23.8% for the March quarter, then recovered 9.2% during the next. Financial year returns were still grim however, with a 13.8% fall. The situations in other European markets was similar, with Germany's DAX up 23.9% and the French CAC Index 13.5% higher over the June quarter. Each performed negatively over the year however returning -0.7% and -9.2% respectively.

In Asia, Japan's Nikkei Index June quarter recovery return was 18.0%, bringing a total return for the year to 7.0%. China was one of the first nations to reopen their economy and while the 2.5% rise by the MSCI China Index in the June quarter looked comparatively modest to the other countries we have discussed, its yearly return of 15.3% was much stronger than others.

Fixed income returns were not immune from the volatility, however produced solid yearly returns when considering the conditions. Global bonds returned 5.2% over the year in Australian dollar (hedged) terms, while Australian bonds slightly underperformed global bonds returning 4.2%.

Overall, for a balanced investor returns for the year were flat, returning 0.7% as measured by the Morningstar Australia Balanced Accumulation Index. While the financial year may not have delivered the strong positive results investors were hoping for, it is critical to remember that the year has presented unprecedented conditions and challenges.

Summary

While there has been a strong recovery in equity markets from the March lows, supported by monetary policy in the form of low interest rates and the enormity of spending programs by governments both here in Australia and around the world, there are still concerns over the short and long term recovery. The gradual lifting of restrictions related to containing the COVID pandemic across the world has been seen as mostly positive by the markets, however the long-term economic ramifications of the shutdowns cannot be known. Until a vaccine is available globally, economic activity and financial market returns will remain vulnerable and uncertain.

We continue to support diversified strategies to help smooth the impacts of any market shocks of the likes we have experienced over the FY2020 year.

Investment Objective & Strategy

The principal investment strategy of Division 1 of the Tidswell Superannuation Fund is to provide a range of risk and return options to suit all investors. This has been achieved by adopting a general investment policy that offers access to a wide range of investment options including managed funds, listed securities, real estate, term deposits and other income producing investments such as mortgages. This policy is designed to provide the opportunity to achieve attractive investment returns at acceptable levels of risk.

Investors are able to satisfy their objectives by selecting the proportion of their account balance to be invested in each investment option as outlined in the latest Product Disclosure Statement (PDS). The higher the proportion allocated to growth assets (e.g. property, Australian and international shares, etc), the higher the expected level of return, but with increased risk. Conversely, when a higher proportion is allocated to defensive assets (e.g. cash, fixed interest, mortgages, etc), a lower level of return and risk may be expected.

Historically, portfolios with a higher weighting towards growth assets have outperformed more conservatively invested portfolios. Given the long-term nature of investing, it is logical that many people weight their portfolios towards growth assets. However, when constructing your portfolio, you should consider the need for diversification to ensure that the investment options selected meet your individual needs, risk tolerance and investment timeframe.

IMPORTANT INFORMATION ABOUT THE TRUSTEE

Trustee

The Trustee of the Plan, under the Trust Deed governing the rules of the Plan, is Tidswell Financial Services Ltd ABN 55 010 810 607, RSEL L0000888, AFSL 237628 (**Tidswell**).

Directors of the Trustee during the year ending 30 June 2020 were/are:

Current as at 30 June 2020		Directors who resigned during the Year		
Name	Date Appointed	Name	Date Appointed	Date Resigned
Ronald Peter Beard	20 August 2012	Stephen William Miller	1 October 2017	25 February 2020
Fiona Margaret McNabb	1 October 2017			
Andrew John Peterson	20 March 2018			
Michael John Terlet AO	19 April 1991			

The Trustee and its directors hold and have held professional indemnity insurance over the entirety of the 2019-2020 financial year.

The Trustee has agreed to act as the independent corporate Trustee and the Fund is administered by the Trustee.

Trustee Committees

The Board has established three Committees and appoints all members. The Trustee's committees are:

Current as at 30 June 2020		Current as at 30 June 2020	
Board, Audit, Risk and Compliance Committee		Investment Committee	
Name	Role	Name	Role
Fiona Margaret McNabb	Chair	Fiona Margaret McNabb	Chair
Michael John Terlet AO	Committee Member	Ronald Peter Beard	Committee Member
Ronald Peter Beard	Committee Member	Andrew John Peterson	Committee Member
Remuneration, People and Culture Committee			
Ronald Peter Beard	Chair		
Michael John Terlet AO	Committee Member		
Fiona Margaret McNabb	Committee Member		

Trust Deed

During the year, the Trustee amended the Trust Deed to introduce a number of new divisions within the Plan. This change has no impact upon you or your benefits within the Tidswell Master Superannuation Plan.

The new divisions are designed to provide the Trustee with the ability to offer interests in other divisions of the Plan.

Compliance

The Trustee believes that the Plan has satisfied the requirements of the Superannuation Industry (Supervision) Act (**SIS**) for the year ended 30 June 2020, and that the Australian Prudential Regulation Authority (**APRA**) will be satisfied that the Plan is operating in accordance with SIS.

Audit

BDO Audit has completed an audit for the Plan. The audited abridged financial information for the Fund is provided within the 'Abridged Financial Information' section of this Annual Report. A full copy of the audited accounts and auditor's report will be available for inspection on the Trustee's website www.tidswell.com.au.

Contributions

Under the compulsory Superannuation Guarantee (SG) scheme, employers must contribute 9.5% of an employee's ordinary time earnings (OTE) to a complying superannuation fund. These contributions must be made within 28 days of the end of the quarter.

The SG payment rate is legislated to remain at 9.5% until 2020/21 after which it will increase by 0.5% each year until it reaches 12% by 1 July 2025.

From 1 January 2020, contributions made under a salary sacrifice arrangement will not count towards an employers' SG contributions in order to avoid the super guarantee charge. Additionally, salary sacrificed super contributions will not reduce the OTE used to calculate super entitlements

Members should check their individual benefit statements to confirm that total contributions have been received from their employer for the year ended 30 June 2020.

Allocation of Earnings

Your accumulation account will benefit from investment earnings (which may be positive or negative). This will be reflected in the unit price of your investment option(s) (the price goes up with positive investment earnings and goes down if there are investment losses). The unit price for an investment option you have selected reflects the total dollars held in that investment option divided by the number of units issued, and the value of your account depends on the value of the unit price and the number of units you hold.

Reserving Policy

We are required under legislation to keep a financial reserve to cover any losses that members incur due to a breakdown in operations. This is referred to as the Operational Risk Financial Requirement (ORFR).

The ORFR may be funded from the financial resources of the Trustee, the Plan assets or a combination of both. The Trustee has determined it will address this requirement from its own resources by including it within its Net Tangible Asset obligation under Corporation Law. The ORFR is invested in the Trustee's cash account

The Trustee presently does not maintain any other reserves within the Plan.

Insurance

The insured benefits from the Plan are provided under a policy of insurance between us the Trustee and MetLife Insurance Limited.

The level of cover is subject to terms, conditions, restrictions, adjustments and offsets (if any) imposed under the policy by the insurer. Members should check their individual benefit statements to confirm the level of cover that they hold.

Service Providers

The Trust Deed permits the Trustee to appoint independent specialists to assist with the management and operation of the Fund. The Trustee has appointed the following professional firms to provide services to it:

Service	Professional Firm																														
Custodian (the independent corporate Custodian of the Plan)	Sargon CT Pty Ltd ABN 12 106 424 088																														
Administrator (administers and maintains all records of the Plan)	Tidswell Financial Services Ltd ABN 55 010 810 607																														
Insurer (underwrites all the insurance on member's lives)	MetLife Insurance Limited ABN 75 004 274 882																														
Auditor (independently verify the financial and operational strength of the Plan)	BDO Audit ABN 33 134 022 870

Trustee Investments

The Trustee is also the investment manager and Responsible Entity of the following investments, which make up the following amounts of the Plan's overall assets as at 30 June 2020:

Investment	Amount Invested	% of Plan Assets
Commonwealth House Unit Trust Managed Investment Scheme ARSN 099 744 000	\$77,727	0.40%
Direct Mortgage Managed Investment Scheme ARSN 095 540 659	\$522,797	2.67%
Pooled Mortgage Managed Investment Scheme ARSN 095 540 597	\$6,168,022	31.44%

Investments representing more than 5% of Plan assets

As at 30 June 2020, at least 5% or more of Tidswell Superannuation Fund's assets were invested in the following:

Investment	Amount	% of Plan Assets
Pooled Mortgage Managed Investment Scheme ARSN 095 540 597	\$6,168,022	31.44%

Combining investments offered by Tidswell Superannuation Fund by Investment Manager to indicate those managers with 5% or more of Tidswell Superannuation Fund's assets are set out below:

Investment Manager	Amount	% of Plan Assets
Tidswell Financial Services Ltd ABN 55 010 810 607	\$6,768,546	34.51%

Derivatives

Derivatives, such as futures or options, are financial contracts used in the management of investments whose value depends on the value of specific underlying investments. For example, the value of a share option is linked to the value of the underlying share.

The Trustee does not directly use derivative instruments. However, some of the underlying managed funds may do so.

External fund managers may use derivatives in managing the investment options that are available through the Plan.

Further Information

We encourage you to review your member benefit statement with this Annual Report. If you would like to discuss any aspect of your statement or this Annual Report, please contact your financial adviser or Tidswell on 1300 796 079.

INVESTMENT INFORMATION

An extensive range of carefully selected investment options are available through Tidswell Superannuation Fund. Our research considers a broad range of products when constructing the list of investments being offered and we select only those that we believe are worthy of making available to our members. We also monitor the performance of the available investment options to ensure they remain competitive.

Blackrock Global Allocation Fund (Aust) (Class D Units)

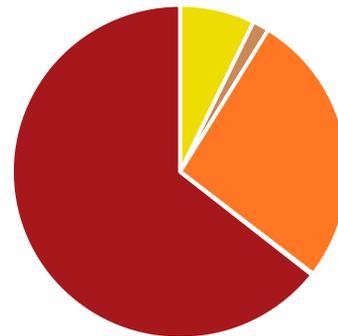

Objective

The Fund aims to provide high total investment returns through a fully managed investment policy utilising international equity securities, debt and money market securities, the combination of which will be varied from time to time both with respect to types of securities and markets in response to changing market and economic trends. Currency is actively managed in the Fund around a fully hedged Australian dollar benchmark

Strategy

The Fund seeks to achieve its investment objective by investing in both equity and debt securities, including money market securities and other short-term securities or instruments, of issuers located around the world. There is no limit on the percentage of assets that can be invested in a particular type of security. Generally, the investment strategy seeks diversification across markets, industries and issuers as one of its strategies to reduce volatility.

Commonwealth House Unit Trust B Class

Objective

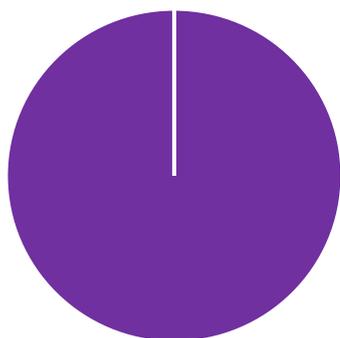

The objective of this direct property strategy is to provide moderate to high levels of regular income.

Strategy

The investment strategy was to purchase the leasehold interest on two retail properties at Lots 1 & 23 Dyson Road within the Noarlunga Regional Centre, and to hold these for the long term. There are multiple subleases on the properties, which include a number of major national tenants. To maintain the value of the initial purchase price, the investment strategy was amended in December 2004 by the acquisition of an office property at Unit 3, 60 Hindmarsh Square, Adelaide using the cash flow from the leasehold interest. The premises at Unit 3, 60 Hindmarsh Square, have partly been leased since 15 November 2018 for a period of 3 years with a right of renewal of 2 + 2 years.

The product is in the process of a wind up and it has been withdrawn from investment offerings.

Fidelity Australian Equities Fund

Objective

To achieve returns in excess of the S&P/ASX 200 Accumulation Index over the suggested minimum investment time period of five to seven years.

Strategy

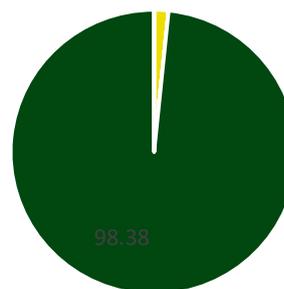

The Fund invests in a diversified selection of around 30 to 50 Australian companies.

Fidelity believes that markets are semi-efficient and share prices don't always reflect inherent value. Through in-house, bottom-up company research, Fidelity aims to uncover the opportunities that it believes offer the greatest scope for outperformance.

Based on this research approach, Fidelity seeks out stocks that it believes are undervalued and likely to generate growth.

The companies selected for the portfolio must demonstrate good management, strong competitive advantages and enjoy favourable industry dynamics.

Legg Mason Martin Currie Equity Income

Objective

The Fund aims to provide an after-tax income yield above the S&P/ASX 200 Index and to grow this income above the rate of inflation.

Strategy

The Fund aims to hold investments so that at the time of purchasing securities:

- exposure to an individual stock is no more than 6% of the Fund;
- approximately 40 to 60 securities are held; and
- exposure to an individual sector (as determined by Martin Currie Australia) is no more than 22%.

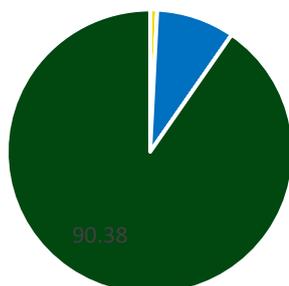

While the maximum holding of cash or cash equivalents is 10%, the Fund is intended to be fully invested in securities at all times with cash being held for liquidity purposes only.

The Fund will not invest in securities issued by companies involved in:

- the production or distribution of cluster munitions
- the manufacture of tobacco products.

The Fund does not use derivatives. The Fund does not intend to borrow.

Bentham Global Income Fund

Objective

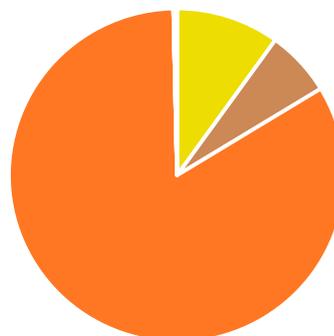

The Fund aims to provide exposure to global credit markets and to generate income with some potential for capital growth over the medium to long term. The Fund aims to outperform its composite benchmark over the suggested minimum investment timeframe.

Strategy

The Fund is actively managed and focused on generating stable investment income by providing a diversified exposure to domestic and global credit markets while managing interest rate risk and currency risk.

Bentham seeks to add value through actively managing allocations across different credit sectors, trading of individual securities and managing its interest rate and currency risk.

Franklin Global Growth Fund (W Class)

Objective

The investment objective of the Fund is to outperform the MSCI World ex Australia Index, in Australian dollar terms after fees and expenses (but before taxes), over the medium to long term.

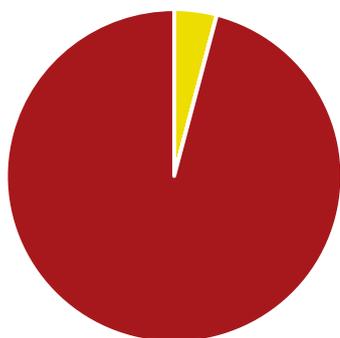

Strategy

The Fund invests in a diversified portfolio of equity securities listed on recognised stock markets in both developed and emerging markets around the world (other than in Australia).

The significant features and benefits of the Fund are:

- A disciplined investment process which aims to build a portfolio of approximately 35-40 stocks that we believe can provide superior returns, while remaining cognisant of the importance of selecting a diversified group of stocks to help manage risk in the portfolio;
- Exposure to a portfolio of high-quality sustainable growth companies chosen on the basis of fundamental company research;
- Professionally managed fund investing in a diversified portfolio across sectors and global equity markets; and
- Access to a highly experienced and stable investment team that utilises a consistently applied investment philosophy.

Franklin Templeton Multisector Bond Fund (W Class)

Objective

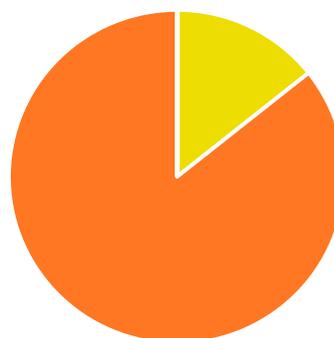

The investment objective of the Fund is to maximise total investment return consisting of a combination of interest income, capital appreciation and currency gains by investing in fixed income securities and debt obligations.

Strategy

The Fund invests in a portfolio of global fixed income securities and debt obligations of governments, government-related, municipal or corporate issuers worldwide and various currencies worldwide, as well as derivatives. The Fund may utilise derivatives for hedging purposes, investment purposes and/or efficient portfolio management. These derivatives may be dealt on either regulated markets or over-the-counter, and may include, among other things, swaps, forwards and cross currency forwards, futures contracts and options.

Derivatives will not be used to gear or leverage the Fund's investment portfolio. The Fund may invest in cash and cash equivalents, exchange traded funds/notes, mutual funds, and other open-ended investment structures which may be managed by Franklin Resources, Inc. or any of its subsidiaries. The Fund's investment strategy may involve holding "short" portfolio exposures through the utilisation of derivative instruments.

Janus Henderson Australian Fixed Interest

Objective

The Janus Henderson Australian Fixed Interest Fund ('Fund') seeks to achieve a total return after fees that exceed the total return of the Benchmark (Bloomberg AusBond Composite 0+ Yr Index), over rolling three-year periods.

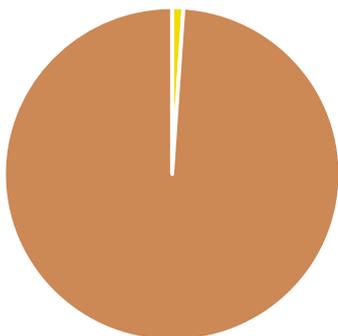

Strategy

The Fund invests substantially all of its assets in the Janus Henderson Australian Fixed Interest Fund - Institutional (ARSN 100 098 413) ('Underlying Fund') and may also hold cash.

The Manager's investment approach is fundamentally driven and seeks to take advantage of situations where market pricing has become misaligned with economic and investment fundamentals.

The Manager applies a range of strategies that include duration and yield curve management (actively managing the maturity profile of securities within the Underlying Fund), sector rotation and individual security selection.

Magellan Global Fund

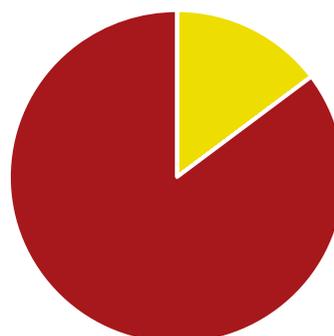

Objective

The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss. The suggested timeframe for holding this investment is 7 to 10 years.

Strategy

While Magellan is focused on fundamental business value, it is not a typical 'value' investor. The Magellan Global Fund will invest in companies that have relatively high price-to-earnings and price-to-book multiples, provided that their businesses are outstanding and their shares are trading at an appropriate discount to their assessed intrinsic value. Magellan focuses on risk-adjusted returns, rather than benchmark-relative returns. As a result, the Magellan Global Fund's investment process is designed to generate an unconstrained, concentrated portfolio of high-quality companies.

Magellan Infrastructure Fund

Objective

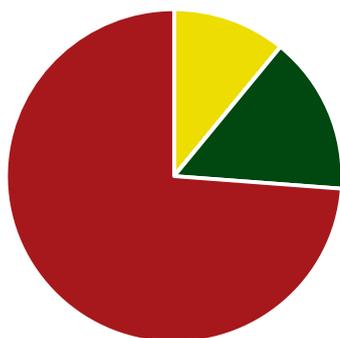

The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss.

Strategy

The Fund has been designed to provide investors with efficient access to the infrastructure asset class, while protecting capital in adverse markets.

The infrastructure asset class, when appropriately defined, is characterised by monopoly-like assets that face reliable demand and enjoy predictable cashflows. As a result, Magellan has established proprietary classification criteria to appropriately categorise securities as investment grade infrastructure, and thus eligible for inclusion in its portfolios or otherwise. Potential investments that meet these criteria are expected to achieve strong underlying financial performance over medium- to long-term timeframes, which should translate into reliable, inflation-linked investment returns.

MFS Fully Hedged Global Equity Trust

Objective

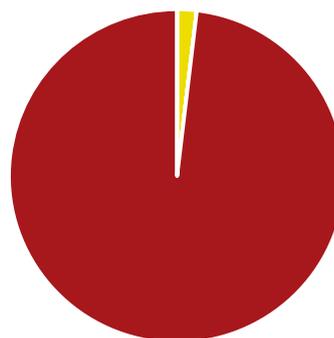

The Trust aims to seek capital appreciation over the longer term by investing in an underlying fund, the MFS Global Equity Trust, which itself has a diversified portfolio of global shares. The Trust is fully hedged and aims to outperform its Benchmark over full market cycle, before taking into account fees and expenses.

Strategy

Through fundamental analysis, MFS seeks to identify enduring businesses, focusing on operational risks and the long-term potential for change. MFS considers whether the valuation reflects the long-term growth and returns of the company, and to what extent it adequately incorporates risk.

The Trust offers the performance of the MFS Global Equity Trust, whilst minimising the effect of currency movements. The Trust aims to achieve this by applying a currency overlay that fully hedges, as far as is practical, all foreign currency exposures into Australian dollars. The Trust is considered to be "fully hedged".

Nikko AM Australian Bond Fund

Objective

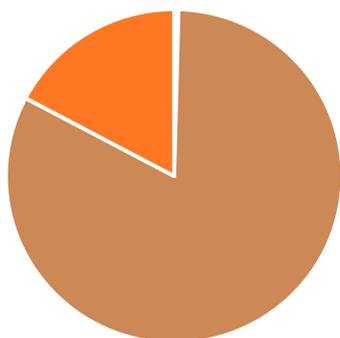

The Fund aims to outperform the Bloomberg AusBond Composite 0 + YR Index over any three-year rolling period, before fees, expenses and taxes.

Strategy

The Fund is a managed investment scheme that invests in a range of predominantly investment grade Australian fixed interest securities, and cash and short-term securities. The Fund may also invest in international fixed interest securities up to 5% of the value of the Fund. Currency and international interest rate risk are hedged back to Australian dollars and Australian interest rate risk, respectively.

The Fund is designed for investors looking for income returns from a diversified portfolio of fixed interest securities which is actively managed to take advantage of interest rate movements and the market's pricing of liquidity and credit risk. The conservative risk profile of the Fund is also designed to provide defensive qualities within an investor's overall portfolio.

Nikko AM - Australian Share Wholesale Fund

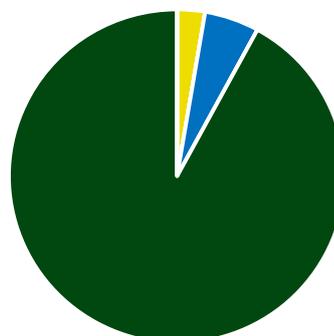

Objective

The Fund aims to outperform the S&P/ASX 200 Accumulation Index by more than 2.5% p.a. over rolling five-year periods, before fees, expenses and tax.

Strategy

The Fund invests predominantly, directly or indirectly, in a selection of Australian shares, with a strong preference for readily marketable securities. The Fund is designed for investors looking for long-term returns (capital growth and income) from a portfolio of shares which is actively managed by an investment team that seeks to identify shares that represent good value.

Pendal Smaller Companies Fund (previously known as BT Wholesale Smaller Companies Fund)

Objective

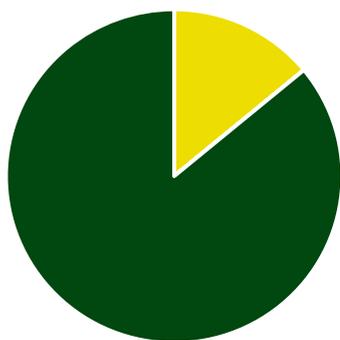

The Fund aims to provide a return (before fees, costs and taxes) that exceeds the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

Strategy

Pendal's investment process for Australian shares is based on their core investment style and aims to add value through active stock selection and fundamental company research. Pendal's core investment style is to select stocks based on its assessment of their long-term worth and ability to outperform the market, without being restricted by a growth or value bias.

Pendal's fundamental company research focuses on valuation, franchise, management quality and risk factors (both financial and non-financial risk).

Perpetual Wholesale Australian Share Fund

Objective

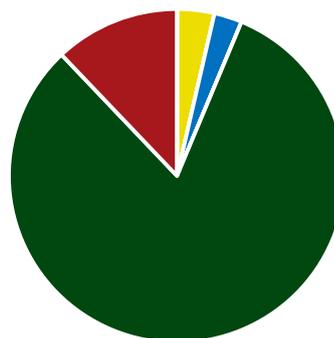

- provide long-term capital growth and regular income through investment in quality industrial and resource shares
- outperform the S&P/ASX 300 Accumulation Index (before fees and taxes) over rolling three-year periods.

Strategy

Perpetual researches companies of all sizes using consistent share selection criteria. Perpetual's priority is to select those companies that represent the best investment quality and are appropriately priced. In determining investment quality, investments are carefully selected on the basis of four key investment criteria:

- conservative debt levels
- sound management
- quality business and
- in the case of industrial shares, recurring earnings.

Perpetual Wholesale Balanced Growth Fund

Objective

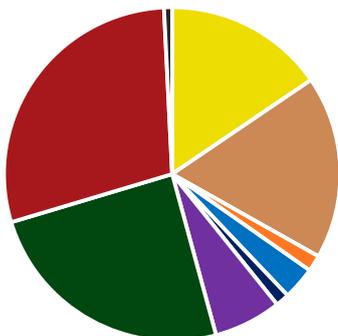

- provide long-term capital growth and income through investment in a diversified portfolio with an emphasis on Australian and international share investments.
- Outperform a composite benchmark (before fees and taxes) reflecting its allocation to the various asset types over rolling three-year periods.

Strategy

The fund invests in a diverse mix of growth, defensive and other assets, with a focus on Australian and international shares.

Tactical asset allocation strategies may be applied, which involves the Fund adjusting its exposure to asset classes on a regular basis within the investment guidelines.

PIMCO Australian Bond Fund - Wholesale Class

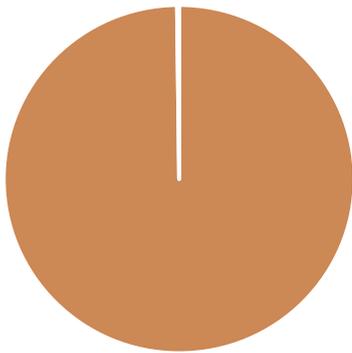

Objective

To achieve maximum total return by investing in fixed interest securities predominantly denominated in Australian or New Zealand currencies and to seek to preserve capital through prudent investment management.

Strategy

In pursuing the Fund investment objective, PIMCO applies a wide range of diverse strategies including Duration analysis, Credit Analysis, Relative Value analysis, Sector Allocation and Rotation and individual security selection. PIMCO's investment strategy emphasises active decision making with a long-term focus and seeks to avoid extreme swings in Duration or maturity with a view to creating a steady stream of returns.

Platinum Asia Fund

Objective

To provide capital growth over the long-term by investing in undervalued companies in the Asian region excluding Japan.

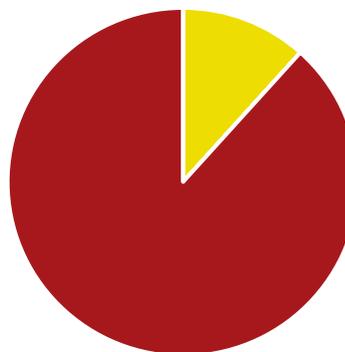

Strategy

The Fund primarily invests in the listed securities of Asian companies. Asian companies may list their securities on securities exchanges other than those in Asia and the Fund may invest in those securities. The Fund may invest in companies not listed in Asia but where their predominant business is conducted in Asia. The Fund may invest in companies that benefit from exposure to the Asian economic region.

Platinum defines "Asia" as all countries that occupy the eastern part of the Eurasian landmass and its adjacent islands and is separated from Europe by the Ural Mountains, and includes the Russian Far East and companies based in China, Hong Kong, Taiwan, Korea, Malaysia, Singapore, India, Thailand, Indonesia, Philippines, Sri Lanka, Pakistan and Vietnam.

The Portfolio will ideally consist of 50 to 100 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued.

Platinum International Fund

Objective

To provide capital growth over the long-term by investing in undervalued companies from around the world.

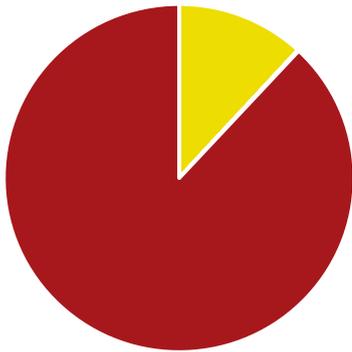

Strategy

The Platinum International Fund primarily invests in listed securities. The portfolio will ideally consist of 70 to 140 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. However, the portfolio typically has 50% or more net equity exposure. Platinum may short-sell securities that it considers overvalued.

Platinum may use derivatives:

- for risk management purposes;
- to take opportunities to increase returns;
- to create a short position in a security;
- to establish positions in securities that may otherwise not be readily available (e.g. to gain access to particular stock markets where foreign investors face restrictions); and

Pooled Mortgage Managed Investment Scheme

Objective

To provide regular income from a diversified range of first mortgage loans.

Strategy

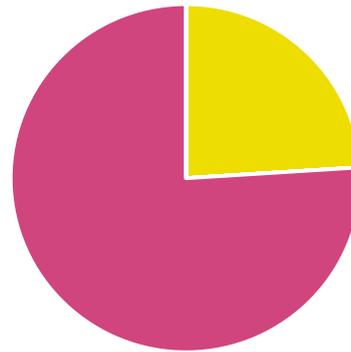

The investment strategy is a pooled arrangement where money is loaned to a number of third parties (the borrowers), usually at a fixed rate of interest over a fixed term, where the loans are secured by first mortgages over a range of properties.

Under the terms of the Constitution, no loan may exceed 75% of the value of the property securing the loan, as determined by an approved valuer.

The majority of loans are for a 12-month period, but occasionally loans may be made for shorter or longer periods.

The product is in the process of a wind up and it has been withdrawn from investment offerings.

Resolution Capital Global Property Securities Fund

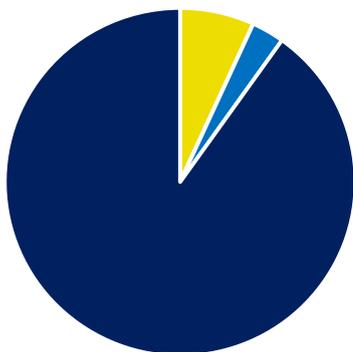

Objective

The Global Fund's investment objective is to exceed the total returns of the Benchmark after fees on a rolling 3-year basis. In doing so, the Fund aims to provide Investors with a level of distributable income combined with the potential for long term capital growth sourced from global real estate based revenue streams. Resolution Capital intends to hedge the capital component of the Fund.

Strategy

Resolution Capital is a value-oriented investment manager with the objective of delivering superior risk-adjusted returns over the long-term relative to recognised industry benchmarks. This is achieved through investment in a concentrated portfolio of carefully selected listed real estate securities with an emphasis on avoiding fundamental flaws which could reasonably result in permanent impairment of capital. Securities in which the Fund invests are diversified across a range of real estate sectors and geographic regions, focusing on investments in the developed markets of North America, the U.K, Europe and Asia Pacific.

Vanguard® Conservative Index Fund

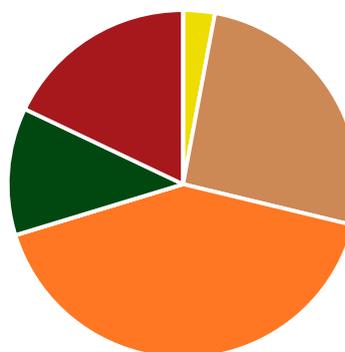

Objective

Vanguard Conservative Index Fund seeks to track the weighted average return of the various indices of the underlying funds in which it invests, in proportion to the Strategic Asset Allocation, before taking into account fees, expenses and tax.

Strategy

The Fund provides low-cost access to a range of sector funds, offering broad diversification across multiple asset classes. The Conservative Fund is biased towards income assets, and is designed for investors with a low tolerance for risk. The Fund targets a 70% allocation to income asset classes and a 30% allocation to growth asset classes.

Schroder Strategic Growth - Wholesale Class
(previously known as Schroder Balanced Fund - Wholesale Class)

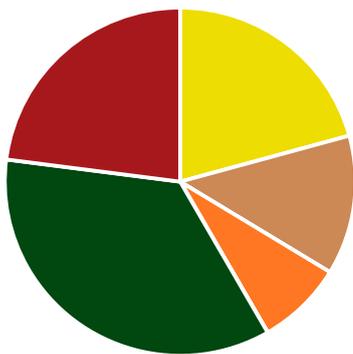

Objective

To deliver an investment return before fees of 5.0% pa above Australian inflation over the medium to long term. Inflation is defined as the RBA's Trimmed Mean, as published by the Australian Bureau of Statistics.

Strategy

The Schroder Balanced Fund is an investment strategy which adopts a traditional multi-asset investment approach. The strategic asset allocation is formulated with Schroders' proprietary medium-term asset class return projections and risk expectations. Investment allocations are adjusted for shorter term considerations to derive the most suitable tactical asset allocation to add value and manage risk. This is complemented further by active security selection within asset classes to generate excess return relative to the benchmark indices.

Vanguard® Balanced Index Fund

Objective

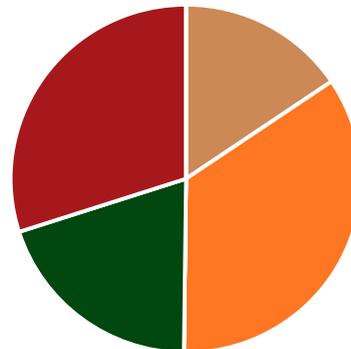

Vanguard Balanced Index Fund seeks to track the weighted average return of the various indices of the underlying funds in which it invests, in proportion to the Strategic Asset Allocation, before taking into account fees, expenses and tax

Strategy

The Fund seeks to track the weighted average return of the various indices of the underlying funds in which the Fund invests in proportion to the Strategic Asset Allocation (SAA) for the Fund, before taking into account fees, expenses and tax.

Vanguard may, at its discretion, commence investing directly in the securities that are, have been or are expected to be in the indices of the underlying funds or in different funds.

Schroder Wholesale Australian Equity Fund – Wholesale Class

Objective

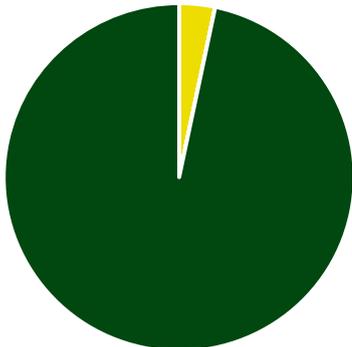

To outperform the S&P/ASX 200 Accumulation Index by 2-3% (before fees) over the medium to long term by investing in a broad range of companies from Australia and New Zealand.

Strategy

The Schroder Wholesale Australian Equity Fund provides exposure to a range of quality stocks in Australia/New Zealand.

Schroders is a bottom-up, fundamental, active manager of Australian equities, with an emphasis on stocks that are able to grow shareholder value in the long term. The Manager describes its style as Quality Growth. Their definition of growth focuses on the long-term quality of the business and the average returns achieved through a full business cycle, not the near term earnings momentum. This long term focus normally results in a relatively low momentum bias in either direction as the process is largely ambivalent to short term earnings direction.

Vanguard® Australian Property Securities Index Fund

Objective

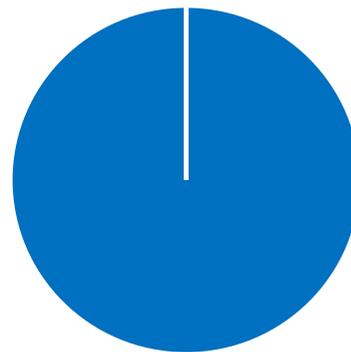

The Fund seeks to track the return of the S&P/ASX 300 A-REIT Index before taking into account fees, expenses and tax.

Strategy

The S&P/ASX 300 A-REIT Index comprises property securities (shares) listed on the Australian Securities Exchange ("ASX"). These securities are real estate investment trusts and companies that own real estate assets and derive a significant proportion of their revenue from rental income.

The Fund will hold all of the securities in the index most of the time, allowing for individual security weightings to vary marginally from the index from time to time. The Fund may invest in securities that have been removed from or are expected to be included in the index.

Walter Scott Global Equity Hedged

Objective

The Walter Scott Global Equity Fund aims to achieve a long-term total return (before fees and expenses) that exceeds the MSCI World ex Australia Index, in \$A unhedged with net dividends reinvested (Benchmark).

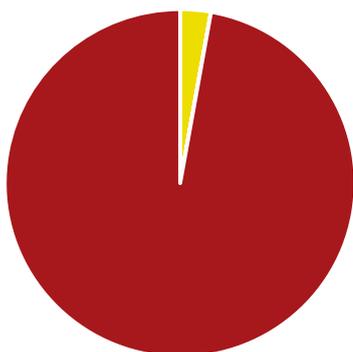

Strategy

The Fund provides exposure to a concentrated portfolio of global equities by investing in securities which, in Walter Scott's opinion, offer strong and sustained earnings growth.

The Underlying Fund is actively managed using a benchmark unaware, fundamental, bottom-up and research-driven approach to build a portfolio of strong growth companies capable of generating wealth over long periods of time.

The Fund's exposure to international assets is hedged back to Australian dollars.

Member's Right to Request Information

As a Member you have the right to request any information that you reasonably require to understand your benefit entitlements. This includes such things as copies of the following information from the Trustee:

- the provisions of the governing rules of the Plan which relate to the person's membership or would affect the entitlements or rights of the Member.
- the audited accounts and Auditor's Report.
- the most recent Actuarial Report.
- the most recent Annual Report to Members.
- any other information a Member reasonably requires to understand their benefit entitlements.

This information must be provided within 30 days of Tidswell receiving your request.

Complaints

Providing great service and looking after the best interests of our members is central to everything we do. If you have an enquiry or you are not happy with our service, please let us know about it so we can do our best to help you as soon as we can. Refer to our 'Contact us' page to find out how.

If you're not satisfied

If your query isn't resolved to your satisfaction or if you'd like us to investigate further, you can make a formal complaint in writing or over the phone through our internal complaints process.

Please call us on 1300 796 079, or write to:

The Complaints Officer
Tidswell Financial Services Ltd
50 Hindmarsh Square
ADELAIDE SA 5000

Phone: 1300 796 079
Email: mail@tidswell.com.au

Please include as much detail as possible and any supporting information about the issue.

We will confirm receipt of your complaint within 14 days of getting it and will try to resolve it as soon as possible. For complaints related to superannuation, legislation requires us to resolve your complaint within 90 days. For complaints related to other financial services, the period within which the complaint must be resolved is 45 days. If you do not receive a response from us within these timeframes, you may lodge it with the Australian Financial Complaints Authority (AFCA) scheme.

Who is AFCA?

AFCA is an external dispute resolution scheme that manages all complaints from consumers in the financial system. From 1 November 2018, AFCA replaces the Superannuation Complaints Tribunal (SCT) and the Financial Ombudsmen Service (FOS) in dealing with disputes related to financial services. The AFCA scheme provides a fair and independent complaint resolution service that is free to consumers.

What if you are not satisfied with how we have resolved your complaint?

You can also lodge a complaint with AFCA if you've made a complaint through our internal complaints process and you're not satisfied with our response. Contact the AFCA on 1800 931 678, through www.afca.org.au or by writing to:

Australian Financial Complaints Authority
GPO Box 3
Melbourne VIC 3001

There are some time limits for lodging certain complaints. This includes complaints about the payment of a death benefit, which you must lodge with AFCA within 28 days of being given our written decision.
